## Nature of the Public Accounts

The Public Accounts is the report of the Government of Canada prepared each fiscal year by the Receiver General as required by section 64 of the *Financial Administration Act*.

The report covers the fiscal year of the Government, which ends on March 31, and is prepared from data contained in the accounts of Canada and from more detailed records maintained in departments and agencies. The accounts of Canada is the centralized record of the Government's financial transactions maintained by the Receiver General in which the transactions of all departments and agencies are summarized. Each department and agency is responsible for reconciling its accounts to the control accounts of the Receiver General, and for maintaining detailed records of the transactions in their accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years.

## Format of the Public Accounts

The Public Accounts is produced in two volumes. **Volume I** presents a summary analysis of the financial transactions of the Government.

**Volume II** is published in two parts. **Part I** presents the financial operations of the Government, segregated by ministry while **Part II** presents additional information and analyses.

**Part I** is designed to reflect as closely as possible the form and content of Part II of the Main Estimates. Most tables and statements in **Part I** display the source and disposition of spending authorities. The level of details provided for the source and disposition of authorities is explained below:

- **Source of Authorities**
  - *Available from previous years*  
Spending authorities allowed to be brought forward from the previous year. Includes only those authorities where there is a specified dollar limit on total spending, or on the accumulated outstanding balance of items where revenues and receipts are available for spending. Usually these items are either revolving funds or loans. These amounts are available for spending without further approval from Parliament.
  - *Main and Supplementary Estimates*  
Include:
    - spending authorities requested in Main and Supplementary Estimates;
    - forecasts included in Main and Supplementary Estimates of spending under authorities granted in various other statutes including Appropriation Acts of previous years.
  - *Adjustments and transfers*  
Include:
    - transfers from or to other ministries such as Treasury Board contingency votes or changes in ministry responsibility;
    - changes within the ministry from one vote to another (under Parliamentary authority), or between activities, types of expenditures or transfer payments;
- changes to statutory amounts due to adjustments of spending forecasts included in Main and Supplementary Estimates, due to cancellation or amendment to statutes or due to adjustments of Crown corporations borrowing authorities;
- reserved allotments to cover over-expenditures of previous year's authorities.
- *Total available for use*  
Authorities available for spending during the current year (net of forecasted revenues and receipts available for spending).
- **Disposition of Authorities**
  - *Used in the current year*  
Amounts spent in the current year (net of actual revenues and receipts available for spending).
  - *Lapsed (variance under)*  
Unused spending authorities which cannot be carried forward to a subsequent year.
  - *Overexpended (variance over)*  
Excess of spending over authorities granted.
  - *Available for use in subsequent years*  
Unused spending authorities which have not lapsed and which are carried forward to a subsequent year.
  - *Used in the previous year*  
Amounts spent in the previous year (net of actual revenues and receipts available for spending). For authorities, activities or transfer payments that no longer exist in the current year, the related total net expenditure of the previous year is reported as a single amount in line with the notation "Appropriations (activities or items) not required for the current year".

The content of **Part I** is summarized as follows:

**(a) Summary Tables (Section 1)**

Section 1 includes the following tables which provide summaries of the financial operations contained in the ministerial sections:

Table 1 presents the revenue and expenditure on both a gross and net basis

Table 2 presents expenditure by type for each ministry

Table 2a reconciles Table 2 with Table 1

Table 3 presents expenditure by standard object for each ministry

Table 3a reconciles Table 3 with Table 1

Table 4 presents revenue by main classification for each ministry

Table 4a reconciles Table 4 with Table 1

Table 5 presents the source and disposition of budgetary authorities by ministry

Table 6 presents the source and disposition of non-budgetary authorities by ministry

Table 7 presents the source and disposition of budgetary and non-budgetary authorities by ministry and by type of authority (voted and statutory)

Section 1 also includes, as appendices, the full wording of all authorities granted in current year Appropriation Acts, of all authorities granted by statutes other than Appropriation Acts, of all non-lapsing authorities granted/repealed in the current year, and of all authorities available from previous years.

**(b) Ministerial Sections (Sections 2 to 31)**

There is one section for each ministry. The programs for the departments and agencies for which a Minister is responsible to Parliament are grouped together to provide a total ministry presentation. Each ministerial section provides a statement of program objectives and activity descriptions. Each ministerial section also includes, where applicable, a uniform set of statements to present each ministry's financial operations. These statements are:

- *Ministry Summary*

This statement displays by program the source and disposition of each budgetary and non-budgetary authority granted by Parliament in Appropriation Acts and other statutes.

- *Programs by Activity*

This statement displays by program the source and disposition of authorities for each activity under each type of expenditure (operating, capital, transfer payments and non-budgetary).

- *Transfer Payments*

This statement displays by program the source and disposition of authorities for each transfer payment.

- *Details of Amounts Credited to the Vote*  
This statement displays by program the nature of revenues and receipts which increase the amounts which may be spent from appropriations having net voting authority.

- *Revenue*

This statement displays by program the nature of revenue collected for each main classification of revenue.

The statements in the ministerial sections are designed so that the relevant totals and sub-totals may be traced directly to a preceding statement and then to the Summary Tables in Section 1. In this way:

- data in the *Transfer Payments* statement can be traced to the *Programs by Activity* statement which can in turn be traced to the *Ministry Summary* (of source and disposition of authorities) statement. Data in the *Ministry Summary* statement can be traced to the *Summary Tables* (Tables 5, 6 and 7) in Section 1.
- data in the *Details of Amounts Credited to the Vote* statement can be traced to the *Programs by Activity* statement and also to *Summary Table 3* in Section 1.
- data in the *Revenue* statement can be traced to *Summary Table 4* in Section 1.

(1) Amounts reported in this column are not necessarily in agreement with amounts shown as transfer payments (Standard Object 10) in Table 3 of this section. Differences are mainly due to certain transactions which have not been processed as they did not meet the materiality limit.

TABLE 2a

### General Summary Recapitulation of Expenditure with Outside Parties by Type

Table 2a reconciles total net ministerial expenditure (Table 2) with expenditure with outside parties on both a gross and net basis reported in Table 1 of this section and in the Statement of Revenue and Expenditure in Section 2 of Volume I. The reconciling items include the expenditure of the consolidated specified purpose accounts, the provision for valuation, the expenditure of the consolidated Crown corporations, and the elimination of expenditure internal to the Government. The difference between gross and net expenditure is revenue credited to appropriations, tax credits and repayments, and revenue of consolidated Crown corporations credited to expenditure.

## TOTAL EXPENDITURE

Note: Amounts shown in this table may differ from amounts shown in Volume I due to rounding.

(1) A reallocation for internal revenue credited to appropriations totalling \$67,378 thousands has been deducted from this transfer payment classification in order to present total transfer payments on a net basis. The same amount has been added to the "Other" classification under "Other program expenditures" as an offset to this reallocation.

(2) Total includes the adjustment of \$163 million representing net change in revenue as a result of 1992 and 1993 accounts receivable (revenue credited to the vote).

TABLE 3

### General Summary Ministerial Expenditure by Standard Object

Table 3 presents expenditure by standard object for each ministry on both a gross and net basis. The difference between gross and net expenditure is revenue credited to appropriations. The standard object presentation of expenditure is related to the goods and services acquired, and transfer payments made, by the Government. "Total gross expenditure" represents the total of expenditure charged to standard objects 1 to 12 inclusively. "Total net expenditure" represents the result of total gross expenditure less total revenue credited to appropriations. "Total net expenditure" discloses the total expenditure reported for each ministry in the ministerial sections of this volume.

Table 3a reconciles total net ministerial expenditure with expenditure with outside parties reported on both a gross and net basis in Table 1 of this section and in the Statement of Revenue and Expenditure in Section 2 of Volume 1.

TABLE 4

# General Summary Ministerial Revenue by Main Classification

Table 4 presents revenue by main classification for each ministry on both a gross and net basis. The difference between gross and net revenue is revenue credited to appropriations. The table also discloses revenue internal to the Government.

In this table, revenue from outside parties represents revenue received from organizations and individuals outside the Government of Canada as a reporting entity while revenue internal to the Government represents revenue generated from transactions between organizations within the reporting entity. The Government of Canada as a reporting entity is defined in Note 1 to the audited financial statements in Section 2 of Volume I.

Revenue credited to appropriations represents revenue that has been credited to expenditure rather than to revenue where authority has been granted by Parliament.

"Total gross revenue" column represents revenue from all sources, including revenue credited to appropriations. The "Revenue internal to the Government" column represents the tax and non-tax revenue internal to the Government. The "Total net revenue" column represents tax and non-tax revenue from both external and internal sources, excluding revenue credited to appropriations. This latter column discloses total ministerial revenue as reported in the "Revenue" statement in each ministerial section of this volume.

Table 4a reconciles total net ministerial revenue with revenue from outside parties reported on both a gross and net basis in Table 1 of this section and in the Statement of Revenue and Expenditure in Section 2 of Volume 1.

**TABLE 4a**  
**General Summary**  
**Recapitulation of Revenue from Outside Parties by Main Classification**

Table 4a reconciles total net ministerial revenue (Table 4) with revenue from outside parties reported on both a gross and net basis in Table 1 of this section and in the Statement of Revenue and Expenditure in Section 2 of Volume I. The reconciling items include the revenue from the consolidated specified purpose accounts, the adjustment of the Exchange Fund Account to recognize the international reserves held in the Account, the accrual of non-tax revenue and the elimination of revenue internal to the Government. The difference between gross and net revenue is revenue credited to appropriations, revenue of consolidated Crown corporations credited to expenditure, tax revenue items related to expenditure and included in revenue, and recovery of tax revenue credited to expenditure.

## General Summary Voted and Statutory Authorities

The Government submits its spending proposals to Parliament in the annual Estimates. During the year, the Government may request further appropriations. The initial request is called the "Main Estimates" and additional requests are called "Supplementary Estimates". With these Estimates, the Government requests authority for that part of the proposed spending which is not already provided by other statutes. The amounts making up the total of such proposed spending are authorized in Appropriation Acts and are generally referred to as "annual" or "voted" authorities. The balance of the planned spending is made under authority of other statutes which authorize disbursements for specified purposes, and for such amounts and time periods as are set by those acts. The proposed or estimated uses of most of these "statutory" authorities for the current year are included in the Estimates for information purposes; however, they are not included in appropriation acts because they have already been authorized by Parliament.

Budgetary appropriations provide spending authority for those transactions which enter into the calculation of the annual deficit or surplus of the Government. Non-budgetary appropriations provide spending authority for all transactions which result in the acquisition or disposal of loans, investments and advances. Balances of appropriations brought forward from the previous years are available for spending, together with current increases to such authorities.

The totals of these authorities are reduced by the amount of their current year use to determine the balances which lapse, are overexpended or are carried forward to future years, depending upon the type of authority. In cases where the spending of loan repayments is authorized, the non-budgetary spending is reported net of such repayments.

*Immigration and Refugee Board of Canada*  
The Immigration Appeal Division provides an independent legal and administrative process for hearing: appeals by certain individuals against

removal orders; appeals by Canadian citizen or permanent resident sponsors against the refusal to land a close family member; and appeals by the Minister of Employment and Immigration against decisions either to grant admission to, or not to order the removal of, people seen at an immigration inquiry. The Convention Refugee Determination Division is responsible for ensuring that all persons in Canada claiming to be refugees receive a fair and expeditious hearing, so as to afford protection to genuine refugees, while discouraging abuse by those making refugee claims for reasons other than a need for protection.

- (S) Statutory authority.  
(L) Non-budgetary authority (loan, investment or advance).  
Treasury Board Vote 5—Government contingencies.  
(1) During the year, Canadian Commercial Corporation was transferred to the Ministry of Supply and Services. Therefore, the previous year's expenditure has been restated by \$14,060,062.  
(2) The activities of Petro-Canada International Assistance Corporation have been transferred from Energy, Mines and Resources to Canadian International Development Agency during 1992-93. Therefore, the total of Vote 35 has been increased by \$13,700,000.  
(3) Asian callable shares have not been called therefore the full amount of \$596,976,219 is available in subsequent years.  
(4) There were no encashments made on the notes payable to the African Development Bank. However, a revaluation adjustment of \$173,280 was processed to adjust the account.  
(5) In accordance with sections 29, 31 and 32 of the *Export Development Act*, the authorized limit of \$6 billion is for loans in support of export development. At the time this authority was granted, these loans were accounted for on non-budgetary basis. Subsequently, the Government changed its accounting policies which resulted in concessional loans being accounted for on a budgetary basis. Therefore, this authority is available for both budgetary and non-budgetary purposes.  
(6) The amount of the loan is shown as a budgetary for recurring purposes.  
(7) This amount includes mandated budget reductions and carry forward of funds as follows: Budget reduction \$110,000; Communications budget reduction \$84,000; 2% Reduction on operating expenditures \$110,000; Reprofitting \$100,000; Carry forward of non salary operating funds \$40,000; Total funds frozen \$444,000.

- (1) During the year, Canadian Commercial Corporation was transferred to the Ministry of Supply and Services. Therefore, the previous year's expenditure has been restated by \$14,060,062.
- (2) The activities of Petro-Canada International Assistance Corporation have been transferred from Energy, Mines and Resources to Canadian International Development Agency during 1992-93. Therefore the transfer payment for National Initiatives has been increased by \$13,700,000 under column "Used in the previous year's expenditure".
- (3) There were no encumbrances made on the notes payable to the African Development Bank. Therefore, a revaluation adjustment of \$173,280 was processed to adjust the account. Therefore, the non-budgetary amount under columns "Statutory adjustments", "Total available for use" and "Used in the current year's expenditure" has been reduced by that amount.
- (4) This amount: (a) Includes \$194,000 in frozen funds—Responsibilities under Canada's Share of Joint Studies, Surveys and Investigations (\$94,000 in Budget reduction and \$100,000 Reprofitting); (b) Includes \$140,000 in frozen funds—Responsibilities under Great Lakes Water Quality (\$100,000 in Budget reduction and \$40,000 carry forward); (c) Includes \$110,000 in frozen funds—Responsibilities under Administration (Budget reduction).

### Objective

To create stronger bonds of citizenship among all Canadians, enabling them to participate fully and without discrimination in defining and building the nation's future.

### Activity Description

#### *Multiculturalism and Citizenship*

The Multiculturalism and Citizenship Program is divided into seven components to achieve its objective:

- **Multiculturalism**—Includes four main areas of activity: race relations and cross-cultural understanding, heritage cultures and languages, community support and participation and cross Government activities;

- **Citizenship Registration and Promotion**—Provision of services for acquisition and proof of Canadian citizenship, as well as delivery of other services legislatively mandated by the *Citizenship Act* and regulations; promotion of the concept and values of Canadian citizenship, its privileges and responsibilities, and its acquisition and retention;
- **Literacy**—The program has a three-part strategy: funding of joint federal-provincial/territorial projects, voluntary and non-governmental sector funding, and co-ordination and liaison by the National Literacy Secretariat;
- **Voluntary Action**—Provision of technical and financial assistance to voluntary organizations and support to the voluntary sector;

- **Human Rights**—Includes four areas of activity: education and promotion, the Court Challenges program, co-ordination of federal, provincial and territorial government activities to fulfill Canada's human rights obligations to the United Nations, and co-ordination of Canada's human rights reports to the United Nations;
- **Common Services**—Includes administration, finance and personnel services, program evaluation and internal audit; and
- **Administration**—Includes the Minister and Deputy Minister's offices as well as the Communications and Corporate Policy and Research branches.
